

ON THE RECORD

New Website & Contact US

The new Southeastern DCC website is now up and running and can be accessed online on the following website address: www.se-aslef.co.uk.

The new website contains useful information for drivers including all notices and newsletters. There is also a contact us page which will replace the current Hotmail address. Drivers can fill in a confidential form and DCC will respond as soon as is practicable. Please make full use of the website.

D.O.O Booklet

Drivers are being briefed on the new Train crew Manuel: D.O.O Operation Rules & Instructions. Please take the time to read this booklet as it sets out what is required from drivers when performing platform interface duties. It is imperative drivers take their time when performing platform duties and adhering to the policy.

The booklet contains clear instruction regarding Driver Responsibilities, Platform Interface, and Duty of Care. In light of the West Wickham incident, please take care not to rush through platform duties during DOO dispatch. Please take your time even if this delays your service. Management is briefing the new booklet, to all drivers during the iPad rollout brief. Any drivers that have attended this brief without the DOO booklet brief will need to be given the time to attend this important brief.

Driver Review Panel & CMS

DCC are concerned with how the CMS system is being managed. In our view far too many drivers are being fast tracked into the Licence removal process without first exhausting all avenues available to management. One of significant note is the lack of application regarding development plans and the practicable handing element to our job. We have a meeting on Wednesday 22 July 2015 with our full time officer to discuss with management our concerns around the competence management system. We will keep drivers updated following this meeting.
