Reporting of Monitors

The Working party would appreciate if drivers reported all faulty monitors to the signaller in the first instance and to pass on reports to the working party. It is in our interests to highlight all problems and to report as much as possible all faulty monitors. The working party would also like to hear the views of all drivers regarding the working of 12 Car DOO units in the Metro area. The working party consists of Steve Gurdler H&S Faversham and, Martin Morris H&S Grove Park. Please forward your reports to either H&S rep or DCC.

Notice to Terminate Employment

As part of the pay deal it was agreed Drivers who wish to leave employment with Southeastern are required to give the company 3 months notice.

Travelling To Work Timings

It would be appreciated if drivers could email their journey times to and from work to Nicola Cork. This is needed to help with the Fatigue Risk Index when compiling rosters at depots.
